Re: Way Broadcasting Licensee, LLC

KLIB(AM), Roseville, CA Facility ID Number: 57702

File Number: BZ-20081209AEW

Dear Mr. Lipp:

This is in reference to the above-captioned direct measurement of power application.

A preliminary engineering study of the application reveals that the daytime monitoring points on the 209.5° and 298.5° radials were incorrectly specified. According to our records, KLIB(AM) was authorized in BL-940525AC with a daytime monitoring point located at 4.7 miles on the 209.5° radial and 3.67 miles on the 298.5° radial. In addition, the NAD83 center of array coordinates were not provided in KLIB(AM) tower registration record 1026716, 1026717 and 1026718. Accordingly, the application must be amended to resolve the above mentioned issues.

Further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide an opportunity to file a curative amendment. Failure to respond or file an amendment will result in the dismissal of the application pursuant to Section 73.3568 of the rules.

Sincerely,

Son K. Nguyen

Supervisory Engineer

Audio Division Media Bureau

cc: Thomas S. Gorton

Way Broadcasting Licensee, LLC

<sup>&</sup>lt;sup>1</sup> The applicant specified the monitoring points located at 5.0 miles for 209.5° radial, and 2.67 miles for 298.5°.
